GO! QUÍMICOS

ABOUT US

With 30 years of experience, GO! Químicos develops and manufactures cleaning, disinfection and maintenance solutions for industry in Mexico, trusted by more than 748 customers.

We were founded in 1996 as QUIMER, serving denim laundries, and expanded into Latin America. In 2006 we became GO! Químicos, in 2013 we created the GO! Clean division and in 2020 GO! Meraki Consorcio was established.

Our own facilities, laboratory and equipment let us develop and manufacture each product, adapt it to your process conditions and deliver it on time.

MISSION

To develop, manufacture and technically support reliable chemical solutions that protect our customers' food safety, productivity and assets.

VISION

To be a national benchmark in specialty chemistry for industry, recognized for the quality of its products, the closeness of its technical service and its commitment to sustainable practices.

SERVICES

We don't just sell product. We support your team from the assessment until results hold up in daily operation.

On-site assessment

We walk your areas with your team and review processes, equipment, water quality and critical cleaning points.

Program proposal

We define products, concentrations, contact times and application methods for each area.

Documented trials

We test in your real operation, together with your quality team, and record every application.

Technical report

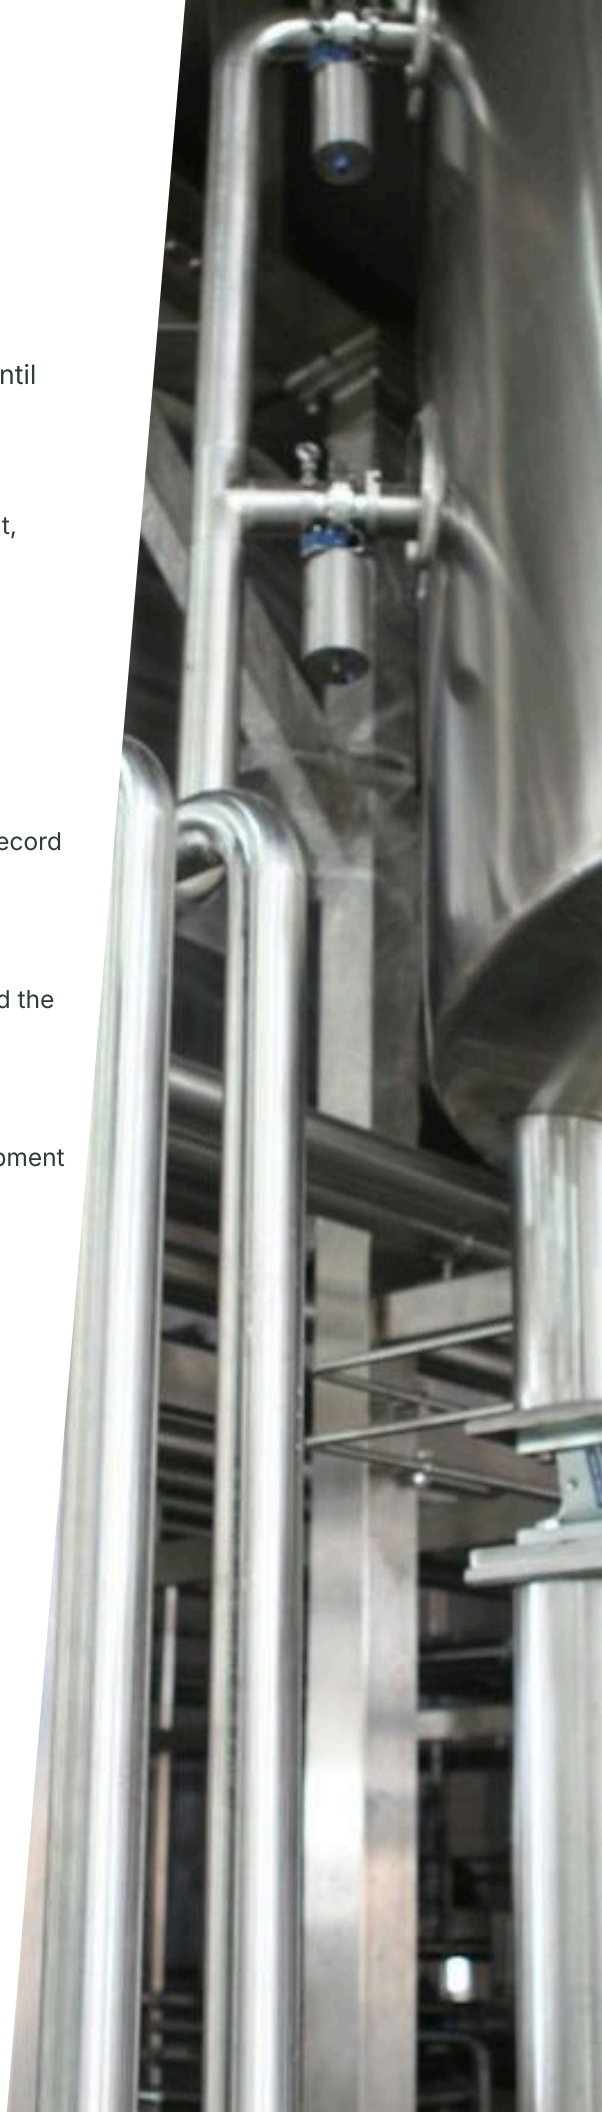

We deliver a report covering what was tested, how it was applied and the results obtained.

Formula adjustment

As manufacturers, we can adjust the formulation to your water, equipment and process.

Supply and follow-up

We ship from the Comarca Lagunera and follow up on dosages and results.

PRODUCTS

METALWORKING

Solutions that remove weld discoloration, reveal iron contamination and leave parts clean and bright before delivery.

Weld pickling | Free-iron detection | Neutralizing | Rust removal | Stainless brightening | Aluminum cleaning

Stainless steel

GO! DECAP
Liquid pickling agent that removes weld burn marks on stainless steel.

GO! DECAP GEL
Pickling gel that removes weld burn marks on stainless steel.

GO! NEUTRALIZANTE
Neutralizer that removes residual acidity from stainless parts.

GO! REVELANT
Solution that reveals iron contamination on stainless steel.

GO! STEEL BRITE
Cleans and brightens stainless steel parts.
